The plot displays the cumulative distribution of the number of non-zero elements in the product of two sparse matrices. The x-axis is labeled 'Number of non-zero elements' and ranges from 0 to 100,000 on a logarithmic scale. The y-axis is labeled 'Cumulative probability' and ranges from 0 to 1.0. The plot shows a series of steps, each corresponding to a specific matrix pair: A/J, C3H/HeJ, X57BL/6J, CBA/J, DBA/2J, FVB/NJ, and SJL/J. Each step is marked with an 'X' and a shaded gray area representing the uncertainty or confidence interval.
